3-14-2011	Pinebrook HOA	4
3-30-2011	River Canyon Estates HOA	9

Overall there is a lot of support for the project. However, the public has raised a number of concerns. They include:

- Out of direction travel for vehicles, pedestrians, and bicycles.
- Murphy road impact to residential and commercial properties
- Roundabout operations, and in particular the planned double roundabout
- Eliminating the crossing of U.S. 97 at Pinebrook
- Changed accesses to businesses
- Closing of Romaine Village Way at U.S. 97
- Being able to access Brookwood from Pinebrook

In addition to the meetings listed above, there have been 14 individual meetings with property owners directly impacted by the project., and numerous one on one phone calls and emails to answer questions.

Project information was mailed to all residents and businesses within the mailing route for the project in February 2011.

Met with Bike and Pedestrian Advisory Committee, Bend Area Transit, and Emergency Services Providers.

Future outreach plans

- Continue meeting with affected property owners one-on-one
- Keep the project website current
- Continue to meet with the Bicycle and Pedestrian Advisory Committee, Bend Area Transit and Emergency Services providers.
