Subject: Land use Law

Oregon laws, specifically measure 49, support land use rights/permits transferring with the home.

Our type one permit we applied for and received, states that the short-term vacation rental permit transfers with the house! How is it possible that individuals and/or groups can so blatantly attempt to revoke homeowner rights and make drastic changes to land-use codes and laws?

Instead, focus on density regulation and set the framework from this point onward, considering the input of all Bend citizens and home owners.

Be proactive and make new regulations clearly defining short-term rentals in compliance with Oregon laws.

Vacation rental homeowners
