

Follow-up info from February 28 CTAC meeting

At its first meeting on February 28, 2018, CTAC members requested background information relating to some specific topics. The following information is intended to address the questions raised by the Committee.

1. *What was involved in the 2016 Urban Growth Boundary Expansion Project, particularly around housing, employment, and complete neighborhood land use patterns?*

- A summary of the technical documents that provide the City's foundation for population, housing, employment, and land use patterns is found here: [UGB Background Information Summary](#)
- A comprehensive presentation summarizing the UGB expansion process is found here: [October 2016 UGB Remand Presentation to Department of Land Conservation and Development](#)

2. *What goes into the Transportation Model?*

- A presentation of the steps that go into transportation modeling is found here: [Travel Model Overview](#)

3. *How is the City thinking about changing technology and transportation?*

- The summary found here reflects a good compilation of current thinking about technology and transportation: [Future Transportation Trends](#)

4. *What are the City's current multi-modal transportation counts?*

- The City is in the second year of a Multimodal Transportation Count Data Collection Program. The data is used to plan for future improvements and prioritize projects. Traffic Counts can be found here: [Traffic Count Data](#)
