TOTAL fees and surcharges (add lines [A] through [E]):	\$	

Impervious surface information – completion of this section is required for all commercial, industrial and multifamily dwelling projects that would result in a change to the impervious surface coverage on any part of the site (not just buildings).

Proposed impervious surface for entire tax lot upon completion of this project: _____ sq ft. No Change
 (If no change, indicate no change)

Impervious surface is defined as a hard surface area that either prevents or retards the entry of water into the soil mantle. Common impervious surfaces include building roofs, walkways, patios, driveways, parking lots, concrete or asphalt paving, gravel roads and packed earthen material.
