Summary

1. 4:00 Welcome and Background Information

Cassie Lacy, City of Bend, convened the meeting. Cassie provided an overview of the meeting and the role of the meetings activities in the Community Climate Action Plan process.

Casey Bergh, Climate Action Steering Committee member, explained how the objectives presented for the energy supply sector during the first working group meeting had been adapted based on the feedback from the first meeting.

2. 4:15 – Facilitated Exercise

Cassie Lacy introduced the participatory portion of the meeting. Posters with the objectives and the descriptions were stationed at tables around the room. Each objective had its own poster. The participants spent the first fifteen minutes reviewing the objectives and silently brainstorming ideas for the CASC to consider. The participants then evenly distributed themselves around the different stations, and each station had a facilitator from the Climate Action Steering Committee or City Staff. Participants spent 30 minutes at each station and provided their ideas on the programs, policies, and investments that could support each objective. Participants rotated around each station so that all participants provided input on each objective.

3. 5:30 – Meeting Adjourned
