Material Exception Fee: \$185.00 plus 4% City Long Range Planning Fee

This Exception Form is required when a street cut in a public street is included as part of a Public Right-of-Way Permit Application and Class "C" or Class "D" Asphalt Concrete as shown on the City of Bend Standard Drawing R-10 is not available.

Contractor agrees to the following additional permit requirements:

- A street cut trench shall be constructed in accordance with the City of Bend Construction Specifications (latest edition) per City of Bend Construction Specifications (latest edition)
 - If Asphalt Concrete material is not available, a trench shall be constructed per the City of Bend Standard Drawing R-10 and cold mix asphalt used in place of ACP.
 - 3. The Applicant and Contractor are responsible to maintain the temporary street patch to the satisfaction of the City until a permanent repair can be constructed per the City of Bend Standard Drawing R-10. Failure to repair a temporary street patch within 48 hours of a request from the City to repair shall constitute a violation of the Right of Way permit.
The Applicant and Contractor are responsible to complete final restoration within 14 days of the end of work.
- The City has the ability to enforce violations for failure to maintain or restore the site. Failure to restore the site within the 14 days window will result in withholding issuance of new permits.

Applicant and Contractor shall indemnify and hold harmless the City of Bend, its officials and employees from all suits and actions for damages or injury based on or arising from any act or omission, neglect or misconduct of Applicant and/or Contractor.
