2.15 Planning Fees							
Application fees must be submitted prior to the city making a determination of whether the application is complete.							
Multiple applications. All multiple lot applications are subject to a base fee for the first lot, plus 50% of the base fee for each additional lot included in the request.							
Per Acre Fee. All per acre fees shall be applied to portions of acres as well (for example, 5.4 acres will be assessed as 6 acres). Type III and Type IV applications processed concurrently are only subject to one per acre fee listed in section 2.15 of this resolution for all concurrent applications; in these instances the highest of the applicable per acre fee will be assessed.							
Hearings Officer. In order to pay the fee charged by the Hearings Officer, all applications including appeals and remands that are reviewed by a Hearings Officer are subject to a deposit of 65% of the original application fee(s) or \$15,000 \$10,000 whichever is less; in no case shall the deposit be less than \$2,000. At the conclusion of the hearing process, any unexpended funds will be refunded to the applicant/appellant. In the event that the deposited funds are insufficient to cover the expense of the Hearings Officer's decision, the applicant/appellant shall be responsible for paying the additional costs.							
Quick Start Fee. Any voluntary request to prioritize and expedite the review of a particular application out of order in which applications are received shall be approved at the discretion of the Director and shall be charged a non-refundable fee of \$15,000 or 2.5 times the sum of the application fees, whichever is greater.							
Replat Fees. The Replat fees are applied for the reconfiguration or elimination of lots or parcels. If new lots or parcels are created, the subdivision or partition fees apply depending on the number of new properties created.

5.2 Water Reclamation - Sewer							
	Description	Fee	New Fee	Unit			
All charges for City wastewater service are monthly unless otherwise specified.*							
Charges determined under contract with specific entities may take precedent over fees listed below.							
Monthly sewer charges for all customers include a base charge to make sewer service available to all; and a volume charge, calculated using monthly water meter readings of actual water usage, based on Winter Quarter Average (WQA). WQA is the average water consumption in the billing periods December, January and February of each year, unless otherwise specified. Using winter months helps to exclude outdoor water use. WQA is calculated and the sewer volume charge is adjusted once annually. In the event that the City does not have monthly meter readings of actual water usage data to calculate the WQA, or the WQA calculation is zero for an account, the sewer volume charge will be based on the WQA default value. The WQA default value for single family residential and commercial customers is based on the average monthly winter water consumption for single family homes served by the City of Bend. The single family residential and commercial current WQA default value is 456 453 cubic feet. The WQA default value for multi-family customers is based on 80% of the average monthly winter water consumption for single family homes served by the City of Bend. The current WQA default value for multi-family customers is 365 cubic feet per unit.							
5.2.01 Single family residential charges							
	a. Base Charge	\$ 35.54	\$ 36.42				
	b. Volume Charge	\$ 3.73	\$ 3.82	Per 100 cu ft of WQA			
The water meter volume used shall exclude summer irrigation flows.							
5.2.02 Multi-Family Residential Charges							
	a. Base Charge (per Unit)	\$ 14.04	\$ 14.39				
	b. Volume Charge	\$ 3.73	\$ 3.82	Per 100 cu ft of WQA			
The water meter volume used shall exclude summer irrigation flows.							
5.2.03 Non-residential Standard							
The non-residential standard customer class refers to non-residential customers that do not meet the criteria to be included in the Extra Strength Charge program.							
	a. Base Charge	\$ 35.54	\$ 36.42				
	b. Volume Charge	\$ 3.73	\$ 3.82	Per 100 cu ft of WQA			
The water meter volume used shall exclude summer irrigation flows.							
5.2.04 Industrial pretreatment charges							
5.2.04a Extra strength charges (ESC)							
Sewer service is provided to all users at a base fee if the wastewater discharged is below the domestic wastewater maximum of 500 parts per million (ppm) of Biochemical Oxygen Demand (BOD) and 500 ppm of Total Suspended Solids (TSS). These laboratory tests evaluate the strength of the wastewater and therefore the amount of treatment needed before discharge of the final wastewater product from the treatment plant. The BOD test indicates the amount of oxygen that is required to reduce the strength of the pollution to an acceptable level, and the TSS indicates how much visible matter is in the wastewater that will need to be separated at the treatment plant.							
Note: Council has elected to charge Extra Strength Charge (ESC) customers full cost service. The increase in rates will be phased over 4 years. 2019-208-19 is the third-last year of the phase in.							
All non-residential users who discharge wastewater into the City wastewater system that is above the domestic wastewater maximum for BOD and TSS shall pay as described under 5.2.05a.

	Description	Fee	New Fee	Unit
The City's stormwater service charge will be issued monthly unless otherwise specified. For single family residential and duplex stormwater-only customers (those City residents paying neither a City water nor City sewer charge), bills are mailed quarterly.				
Actual credits and exemptions (if any) will be determined by Resolution No. 2660, as it may be amended.				
5.3.01	Single family and duplex residential charges			
	a. General service charge	\$ 5.46	\$ 5.62	
5.3.02	Multi-family residential and non-residential charges			
All users, except single-family and duplex residential customers, shall pay the following monthly charge(s).				
	a. General service charge	\$ 5.46	\$ 5.62	Per Equivalent Residential Unit (ERU)
5.3.03	Definitions			
a. General service charge – The general service charge is defined as the minimum stormwater charge assessed to the person responsible for paying the assessment. The person responsible is defined as any owner, agent, occupant, lessee, tenant, contract purchaser, or other person occupying or having the right to occupy a property with manmade impervious surface area. The general service charge shall be calculated by multiplying the ERUs for the lot by the most current per ERU fee as periodically determined by the City. The charge may fund operations, maintenance, replacements and improvements to the stormwater system including payment of debt service for capital improvement bonds.				
b. Equivalent Residential Unit (ERU): One Equivalent Residential Unit (ERU) is defined as the average amount of impervious surface area on a single family residential lot in the City. The City has determined that one ERU is 3,800 square feet of impervious surface area. Except as may be provided in the Stormwater Credits and Opt-Out Program, the minimum number of ERUs for a lot with any amount of impervious surface area is one. Where the calculation results in a more than 1.0 ERU, the result shall be rounded to the nearest whole ERU.				
c. Impervious Surface: A hard surface area that either prevents or retards the entry of water into the soil mantle. Common impervious surfaces include: building roofs, walkways, patios, driveways, parking lots, concrete or asphalt paving, gravel roads, and packed earthen materials.
