Q2-22 Report

Saving Grace
Navigators have been maintained as employees and the important services these navigators provide have remained uninterrupted for our clients.

Dawn's House purchased 4 cabins and is on track to move in women and children by August 2022.

TESTIMONIALS

REGISTERED NURSE & COVID TESTING
The Registered Nurse and COVID testing helped to prevent outbreaks and spread through regular testing, health assessment, and monitoring of quarantined residents and staff. —Shepherd's House

MEDICAL EXAMS & THERAPY
The medical exams provided through this grant enabled us to learn about abuse that may have occurred and what specific traumatic experience have impacted each client. KIDS Center is then able to offer clients the opportunity to engage in ongoing therapy to begin to resolve trauma and to begin the healing process.

"There is great value in providing a space where children and youth who have been impacted by significant trauma following physical or sexual abuse can truly be heard and validated. The experience that children have when they participate in a child abuse evaluation helps to build the trust and comfort with the KIDS Center that they need to engage in therapy here. I am grateful that I get the opportunity to work alongside them on their journey of healing." —Therapist at KIDS Center

HEALTHY FOOD & COMMUNITY
"Even to pick up to-go meals, it was someplace to go and have some socialization. My food choices would have been less healthy without this place during COVID. Now that I work here, I got my Food Handler's card. It's made me look at things differently regarding food safety. And now I have enough income so I don't have to worry about monthly bills." —Miriam, Staff with Lived Experience at Family Kitchen
